Dear Sir/Madam,

RE: PLANT TRAINER / OPERATOR / ASSESSOR

Having completed almost four decades in heavy earthmoving, construction and open cut mining operations as a Plant Operator and Trainer in Australia, I am currently seeking new directions, challenges and employment opportunities, particularly in International settings. I write to your organisation in anticipation that my skills would suit your current operations. As a New Zealand citizen with current Passport, I am available for single status work environments.

My career includes a rich history of achievement in safety, productivity and operational skills and as an effective workplace trainer and assessor. This experience includes three decades as a Plant Operator and Trainer in earthmoving operations for Open Cut Mining enterprises and ten years as a Plant Operator in heavy construction industries with involvement in major construction projects such as Dams, Railway Lines, Railway Diversions, Irrigation Channels, Power Station Outlet Channels, Tin and Asbestos Mines.

As an accredited Workplace Trainer and Assessor, I have had extensive experience in induction, training and assessing new plant operators in the use of machinery and earthmoving equipment to best advantage in terms of safe working practices, efficient operation and increased productivity. I am skilled in the operation of all types of heavy earthmoving equipment including Shovels, Scrapers, Graders, Loaders, Bulldozers. I am highly valued by management and co-workers for my practical experience and knowledge and am recognised for my finesse in machinery operation together with my ability to improve procedures and efficiency to ensure safety, work flow continuity, maximum production and quality completion of tasks.

The attached Resume details my machinery expertise, industry training accreditation, employment history and achievements. With my career background and experience, I believe I have much to offer your organisation as either a Trainer or Plant Operator skilled in a variety of heavy earthmoving, construction and mining operations. I would welcome the opportunity to discuss employment opportunities and my relevant capabilities with you personally and I look forward to your response to this application.

Yours faithfully,

John Nixon
